Module 6 Scenario Tasks - Über Consulting

Team Dan, Frank, Harry, Yuan </div>

Scenario 4 - New Office Planning

<highlight>Über-Consulting</highlight> is planning to open new offices in <highlight>Darwin</highlight> and <highlight>Perth</highlight>.

In line with Über's company culture of <highlight>employee empowerment</highlight>, the Über management team discusses ways to <highlight>involve as many staff as possible</highlight> in the decision-making about the <highlight>facilities</highlight> and <highlight>interior design</highlight>.

Consider:

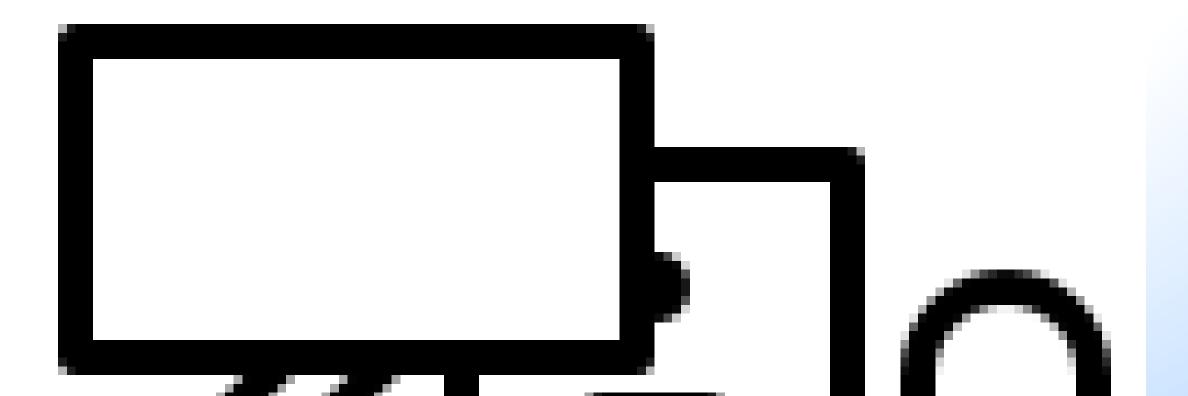

- 1. Discuss <highlight>essential functions</highlight> for the new offices considering the size, layout, and required facilities.
- 2. Explore ways to <highlight>involve staff in the decision-making</highlight>

Essential Functions - Operational Needs

Essential for the <highlight>daily operations</highlight> of the business

<div class='flow titled flex img-sm'>

Workstations

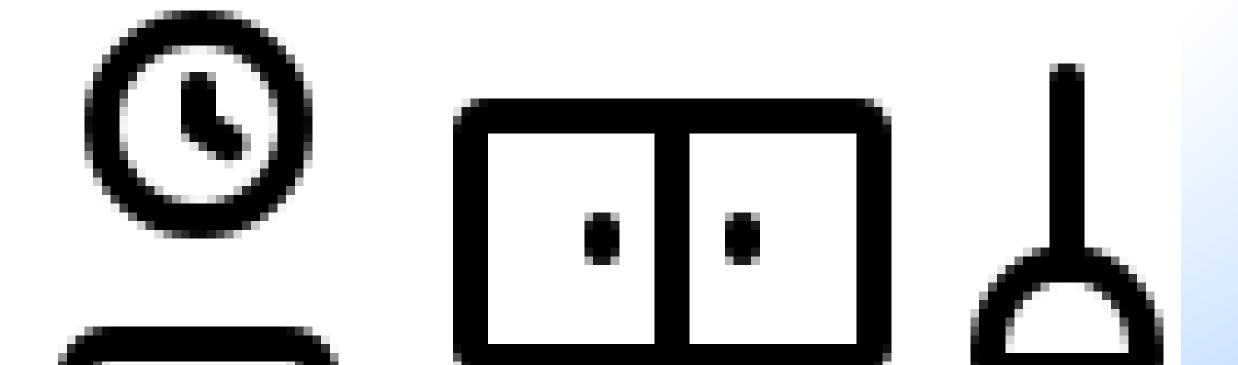

Essential Functions - Support Facilities

Support the <highlight>general well-being</highlight> of staff and visitors

<div class='flow flex img-sm titled'>

Kitchenette

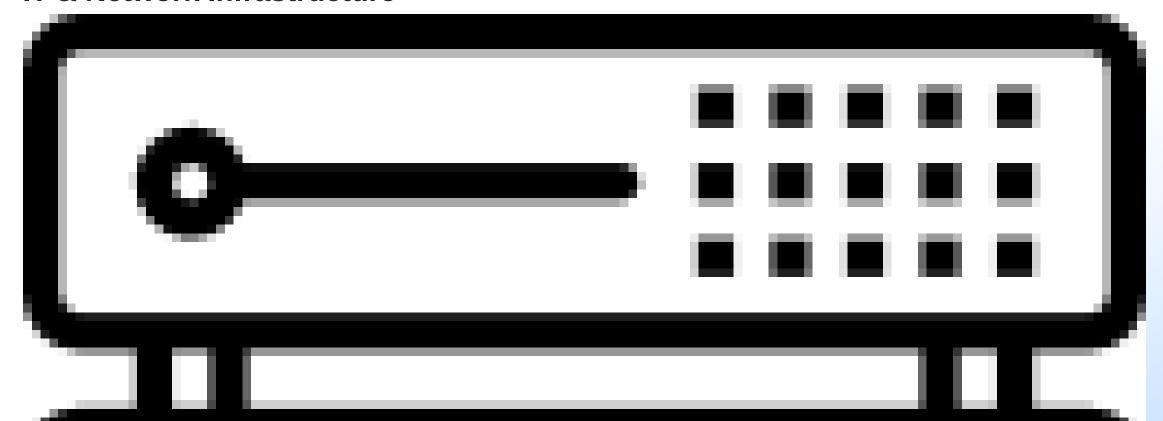

Essential Functions - Technical and Compliance

Support the <highlight>technical and security</highlight> needs of the office

<div class='flow flex img-sm'>

Decision-Making Process for Computer Purchases

<div class='flow grid cols-3' style='font-size: 25px;'>

Needs Assessment

Identify staff requirements (e.g., software needs, processing power, storage capacity).

2 Market Research

Research available computer models, considering factors like performance, reliability, and cost.

3 Criteria Development

Define selection criteria (e.g., budget, compatibility, warranty, support).

4 Vendor Evaluation

Evaluate vendors based on product offerings, reputation, and customer reviews.

Testing and Comparison
